Comment:

After this meeting I am concerned with the best use of this land if this application is accepted. In previous meetings it was suggested Clark county needs more large (50+100 acre) parcels for industry. In this meeting the idea of saving this prime agriculture land for food production in the event of a food shortage was raised. I would like to see the county set strict criteria for use that insures this land is developed in the best interests of all county citizens.
